

Family Learning courses are taught at libraries, Children's Family and Wellbeing Centres, schools, online and in the community.

For parents of children aged 6 months to 3 years, Family Learning deliver courses focused on sensory play, storytime fun, arts and crafts and encourage development of fine motor skills, nutrition, healthy eating and learning through play.

For parents of children aged 4 to 11 years old, we offer courses that are designed around reading, phonics, maths, and English. These courses will support you to understand the journey from Key Stage 1 into Key Stage 2, and from Key Stage 3 into secondary school.

We also offer courses that teach you about children's social and emotional wellbeing, resilience, children's health, First Aid, how to keep your family safe online and budgeting. We also offer courses during school holidays and half terms based around different cultural and local events.

“Over the last few years, I have completed many of the Family Learning courses, such as Story Sacks and Making Sense of KS1 Maths. I have found these courses immensely helpful in terms of being able to support my own children with their early learning of both literacy and numeracy.”

Some courses are delivered as joint learning where you can learn alongside your child, while other courses are for adults only. All Family Learning courses are FREE and specially designed for those who do not currently hold a Level 2 qualification.
