English and Maths

Whether you are looking to brush-up on the basics, grow your confidence, or gain a qualification, our English and maths courses give you the knowledge, skills and support you need to succeed.

Visit our
website

www.GoLearnLeicestershire.ac.uk

English and maths are so important for modern life. GoLearn will provide you with the support you need to achieve your goals.

Our English courses will help you to develop your reading skills, improve your writing, and become more confident in speaking. We offer a range of courses throughout the year both online and at selected venues.

Our maths courses can help you feel more confident in working with numbers and solving problems. Whether you are helping with your child's homework, calculating your household budget, or tackling data at work, we have something to support everyone.

If you are looking to enter further or higher education or enhance your employment prospects, Functional Skills will provide you with the necessary qualification to progress.

What's the cost?

Our English and maths courses are fully-funded to anyone who has never previously achieved a Grade 4 or Grade C, at GCSE level, is currently working below this level and meets the residency eligibility criteria.

Finding the right course for you

Before enrolling on one of our English and maths courses you will need to complete a short assessment to help us gauge your current working level. This will allow us to match you to a course at the right level for you. You will also be offered an appointment with a member of our English and maths team to find the best course for you, discuss your next steps, and tell us about any support you may need.

Functional Skills Courses

Functional Skills qualifications are available from Entry Level through to Levels 1 and 2. The learning is focused on growing your confidence with English and maths and developing skills which are used for everyday life and work.

Course	No. of Weeks	Hours per week	Classroom/online	Cost
Functional Skills English	Varies	2.5 hrs	Both	Fully-Funded
Functional Skills Maths	Varies	2.5 hrs	Both	Fully-Funded

Entry Level courses are delivered face to face at our venues whilst our Level 1 and 2 courses offer both online and classroom-based options. The length of sessions and number of weeks will vary depending on your chosen course. You will be advised of this as part of your assessment.

Preparation Courses

Our preparation courses are designed to support learners needing to develop their skills in certain areas before progressing onto a Functional Skills course. Upon completion of a preparation course you will be offered advice and guidance for your next steps and complete a further assessment to assess your working level after the completion of the course.

Check our website or call us to find out what's available near you.
